

source | sense

Source Sense is designed for agriculture to provide all of your sensor data in a single platform. With an influx of information comes empowerment to see real-time every aspect of your operation. With monitoring and alerting automation, Source Sense can be your central component to leverage information to improve worker safety, security, facility maintenance & control, soil conditions, and asset monitoring.

Source Sense is a powerful platform with a single pane of glass. It enables you infinite plug-and-play IoT solutions.

- ✓ Soil Monitoring
- ✓ Bin & Tank Monitoring
- ✓ Flow Detection
- ✓ Air Quality Monitoring
- ✓ Automated Valve Control
- ✓ Electrical Motor Monitoring
