

source | sense

Source Sense is the perfect fit in professional services, enabling automation in the collection, reporting, and alerting to conditions in your organization. Source Sense can gather environmental data for reporting, assist in facilities maintenance by monitoring equipment performance, and waste bin levels. Real-time alerting of customer presence and employee safety as well. Source Sense can be customized to fit your business today.

Source Sense is a powerful platform with a single pane of glass. It enables you infinite plug-and-play IoT solutions.
