

source | sense

Retail operators need to have real-time awareness, and Source Sense can provide it. By gathering, reporting, and alerting on information, Source Sense can help you streamline retail operations. Examples include alerting to guests in a waiting area such as a lobby or curbside, to air comfort monitoring and trash can levels. Source Sense can be the eyes for your operations, helping you be even more efficient.

Source Sense is a powerful platform with a single pane of glass. It enables you infinite plug-and-play IoT solutions.
