

# Zero Hassle EV Charging

## The Power of Full Connectivity

EV Charge Network Operators face real challenges: consistent connectivity in busy cities, signal issues in remote areas, and blind spots in parking garages.

With each installation, Source Inc. is here to make it all simple.

Digi IX10 Industrial Cellular Router  
For one-to-one installations serving as primary connectivity.

Digi IX20 Industrial Cellular Router  
For one-to-many installations serving as existing module failover connectivity.

FOR MORE INFORMATION, PLEASE CONTACT SOURCE INC.

Source Inc. is a prominent technology solutions provider based in Kansas, founded in 2004. Specializing in comprehensive integrations of IT and communications services.

Their expertise in deploying LTE and 5G-enabled devices and infrastructure supports seamless, high-speed communication networks essential for modern business operations.

## Value-Added Services and Competitive Advantages

Source Inc. distinguishes itself in the market through a variety of value-added services and competitive advantages.

**Staging and Kitting:** Source Inc. offers meticulous staging and kitting services ensuring that all equipment is pre-configured, tested, and packaged according to the specific needs of their clients. This preparation streamlines deployment, reduces installation time and minimizes errors.

**Installation Services:** Source Inc. provides comprehensive installation services, managing the setup and integration of hardware and software solutions on-site. The team of certified professionals ensures smooth and efficient installations, adhering to best practices and client specifications.

**Technical Support:** Source Inc. boasts a strong technical support system, offering clients ongoing assistance and troubleshooting. The support team is available to address any issues promptly, ensuring minimal downtime and sustained operational efficiency.

**Financing Options:** Understanding the financial constraints that businesses may face, Source Inc. provides flexible financing solutions. These options enable clients to access the necessary technology without immediate financial burden, facilitating growth and technological advancement.

**Customized Solutions:** Source Inc. is skilled at crafting custom solutions tailored to the unique requirements of each client. This customization ensures that the technology deployed aligns perfectly with the client's operational goals and challenges.

**Certifications:** Source Inc. demonstrates its commitment to excellence and quality standards by displaying a SOC2 Type 2 certification.
